

THIRD VICTIM DEAD AFTER MINGO FIGHT

George Crum in Ante-Mortem
Statement Denies Attempt
to Start Trouble.

WILLIAMSON, W. Va., May 26.—George Crum, who was shot in a fight between a detail of State police and Kentucky National Guardsmen on one side and a party of men they encountered in a road near Nolan, W. Va., last night, died in a hospital here this afternoon. A State policeman and a Guardsman were killed in the encounter.

Gov. Morgan in Charleston today announced that ten thousand rifle cartridges shipped from St. Louis and consigned to Sid Hatfield, feudist, at Matewan, W. Va., are being held in the office of the American Railway Express at Bluefield.

The cartridges are being held at the request of Gov. Morgan, made to the president of the Norfolk and Western Railroad. An embargo was placed on the shipment of arms and munitions into Mingo county last week.

State and county authorities to-night watched with extreme caution the situation along the West Virginia-Kentucky border after the events of last night at Nolan. Capt. Brockus of the State police, reported that the region was quiet. A similar report came from Sheriff A. C. Pinson of Mingo county.

Soon after Crum was admitted to the hospital he told the authorities that he had done nothing to excite the trouble at the Nolan ferry, where the fight started, and during which Private Charles Kackley of the West Virginia State police and Private Manley Vaughan of the Kentucky National Guard, were killed.

An arrest under Gov. Morgan's proclamation of martial law for Mingo was reported to-night. Sheriff Pinson announced that Ross Perry was arrested by deputy sheriff near Gilbert, W. Va., and charged with having ammunition in his possession. He was held without bail.

Discussing the announcement at Wash-

ington to the effect that a Senate committee would investigate the situation in Mingo county, David Robb, international financial agent of the United Mine Workers of America, said: "So far as I am concerned I welcome any investigation that will help clear up any economic or industrial misunderstanding in southern West Virginia."

Representatives of the Williamson Coal Operators' Association made no comment on the question of an investigation by the Senate. Major Tom E. Davis, personal representative of Gov. Morgan in the Mingo region, is en route to Charleston, where he will confer with the executive.

SENATE COMMITTEE TO PROBE DISORDERS

Kenyon of Iowa Plans to
Take Charge.

WASHINGTON, May 26.—The Senate Committee on Education and Labor voted today to investigate recent disorders in the coal mining region along the Kentucky-West Virginia border. A subcommittee probably will begin hearings at Williamson, W. Va., about June 10.

The committee ordered a favorable report on the resolution by Senator Johnson, Republican (Cal.), to authorize the investigation. Senator Kenyon, Republican (Iowa), committee chairman, plans to take charge personally of the inquiry at Williamson. Other members of the subcommittee are to be appointed later.

THIS CITY GETS 2 NEW MARINE CORPS CO.S

Third Unit, Just Authorized,
Goes to Rochester.

Special Despatch to THE NEW YORK HERALD.
New York Herald Bureau.

Adjutant-General Kincaid today received authority from Washington to organize three Marine Corps companies from members of the Marine Corps Reserve. Two companies are to be located in New York city and one in Rochester. One company will be stationed in the naval militia armory in Manhattan and another in the naval militia armory in Brooklyn.

CURRICULUM FOR HOTEL WORKERS SCHOOL OUTLINED

Diplomacy and Languages for Head Waiters, Dietetics
and Manicuring for Waiters, Chemistry and
Game Laws for Chefs Suggested.

Special Despatch to THE NEW YORK HERALD.
Chicago, May 26.—A hotel school to teach prospective hotel employees all the intricacies of the business, from dishwashing to financial management, was recommended by an investigating committee of the American Hotel Association, in session here to-day. The committee heard an exhaustive report compiled by the Federal Board for Vocational Education.

The bureau has been working on the report since last November. Hundreds of hotel proprietors and employees have been quizzed. Every job in a metropolitan hotel, from bus boy and scullery maid to the lordly head waiter and the \$10,000 a year pastry cook, has been analyzed and catalogued.

According to J. K. Blatchford of Chicago, a member of the research committee, the hotels are simply muddling through.

"The steward should first of all be a chemist," said Mr. Blatchford. "He should know how to feed people scientifically. No stock man, for instance, would feed his cattle on the haphazard principle that obtains where human beings are concerned."

"The chef should be able to talk English, French, German and Italian. He should be a chemist. He should know the game laws. The second cook should know how to blend sauces and understand the essentials of a good soup. The roast cook should know how to carve."

The head waiter, according to Mr. Blatchford, must be a diplomat, a person of tact and good judgment. He must know how to adjust complaints in French, German and Italian. A waiter should know what silverware to use with certain dishes.

A competent waiter should also have at least three years' experience, be neat and clean, with manicured finger nails, know how to serve all dishes properly

MRS. NOTT OVERCOME BY SIGHT OF TRUNK

Trial for Murder of Husband
Halted by Her Hysteria.

Special Despatch to THE NEW YORK HERALD.
BRIDGEPORT, Conn., May 26.—Mrs. Ethel Hutchins Nott, who is on trial before Judge W. H. Maltbie here for the murder of her husband, George E. Nott, last August 29, became hysterical today when two deputy sheriffs brought into the court room the trunk in which Nott's body had been crammed and buried in the quicksand swamp at Easton. Her condition finally became such that Judge Maltbie ordered a recess so she could recover her composure.

Only three witnesses were called today by the State, the principal one being Dr. Samuel Garlick, Medical Examiner, who told of performing the autopsy, and described in detail the sixteen stab wounds, the four gunshot wounds and the wounds on the dead man's head.

The trial will continue to-day. The defense will endeavor to prove that Mrs. Nott's only connection with the crime was to shield Elwood B. Wade, who was hanged last Friday for the murder.

STOCKYARD WORKERS' WAGES CUT 10 PER CENT.

Agreement Signed for 5,000
Persons in This District.

A new agreement providing average wage reductions of 10 per cent. for 5,000 slaughter and packing house workers in this district has been signed by employing packers and the Amalgamated Meat Cutters and Butcher Workmen of North America. It was announced yesterday.

The new contract also provided for continuation of the preferential union shop; the basic 48 hour week for miscellaneous and common labor; a basic 10 hour day for drivers and chauffeurs, and an 8 hour day for all other labor.

The agreement was signed by Armour & Co., Swift & Co., Wilson & Co., Morris & Co. and various smaller concerns.

PANAMA DELEGATES HAVE FRUITLESS TRIP

Washington Refuses to Dis-
cuss Costa Rica Award.

WASHINGTON, May 26.—Representatives coming from Panama to seek reconsideration by the State Department of the attitude it has taken in connection with the Panama-Costa Rica boundary dispute have a virtually hopeless task. It was indicated to-day at the department.

It was understood they would urge that the whole matter be referred to a joint commission to be named by the two republics, but officials intimated that this suggestion would not be entertained.

FUR STORAGE

REMODELING and REPAIRING

A new ELECTRIC VACUUM SYSTEM, recently
installed, insures thorough cleansing of
all furs entrusted to our care.

Remodeling—We are enabled, through infor-
mation received by our fashion authorities
abroad, to remodel your furs in conformity
with the new modes adopted by noted Con-
tinental designers, well in advance of the
season for which they are intended.

All work executed during the Spring and
Summer months is done at nominal cost.

Frigid-Cold Dry Air, such as we constantly
maintain at uniform temperature for storage
purposes, adds a noticeable vigor and lustre
to the fur, as well as preserving the life and
softness of the skin.

Garments will be called for upon request.
